With over 3 years of experience in web, mobile, and backend technologies, I am a dedicated software engineer passionate about problem-solving and creating robust solutions. I thrive on dynamic projects and am eager to leverage my expertise to drive innovation and deliver impactful results.

## WORK EXPERIENCE

### Software Engineer Softlift

05/2024 - Present

Islamabad, Pakistan

### Software Engineer Solutionsloft

08/2022 - 05/2024

Lahore, Pakistan

#### Achievements/Tasks

- I have developed and maintained several iOS and Android applications, successfully bringing them to market on both the App Store and Play Store. Throughout the process, I managed end-to-end development, working closely with designers and backend engineers to ensure seamless integration and deliver exceptional user experiences. I also took charge of monitoring app performance and rolling out updates, consistently staying abreast of the latest trends and best practices in software development to foster continuous improvement and innovation.

### Software Engineer HA Technologies

02/2021 - 08/2022

Islamabad, Pakistan

#### Achievements/Tasks

- I engineered a mobile app for a state agency, while also developing a dynamic web portal. My focus was on ensuring consistent and optimised functionality across all platforms, significantly enhancing user accessibility and engagement.

## PROJECTS

### ezVOLTz

- Mobile & Web application, facilitating real-time location and availability of EV charging stations throughout the USA. Features include customizable search filters, trip planning with turn-by-turn directions, and community-driven enhancements through user reviews and station updates.
- <http://ezvoltz.com>

### Call4Care

- Provided comprehensive moving and cleaning services through Call4Care, assisting both individuals and businesses with relocations across Sweden. Managed tasks including packing, transport, and various cleaning services (move-out, office, and construction cleaning). Coordinated multiple services in a single day to streamline the moving process and enhance customer satisfaction.
- <https://apps.apple.com/us/app/call4care/id1502092823>

### Estate92

- A real estate portal designed to streamline property searches by connecting clients with reliable dealers. The platform offers detailed listings for both business and residential properties, featuring quality advice, brokerage services, and investment options. It enhances the property search experience by uniting buyers, sellers, and dealers on a single, user-friendly platform.
- <https://estate92.com/>

### spacenartist

- A marketplace for outdoor advertising and artist collaboration. The platform offers a comprehensive range of advertising options across UAE, including outdoor media, press release distribution, and luxury brand activation. It connects clients with top industry experts for tailored marketing campaigns, artist management, and event coordination, featuring streamlined communication through WhatsApp integration.
- <https://www.spacenartists.com>

### Hira Receipts

- A mobile app designed to enhance financial transaction efficiency for in-house team and clients. The application reduces paperwork and streamlines processes, delivering a more seamless and expedited experience to boost overall customer satisfaction.
- <https://play.google.com/store/apps/details?id=com.receipts&hl=en>
